

### 1. Bartlett Blinds:

One of the most experienced manufacturers of awnings in Australia, providing exceptional quality and service for over 48 years. No matter what the application, Bartlett have a product to suit your needs.

### 2. Laserlite: Polycarbonate Roofing

Laserlite roofing is made for high impact weather resistance, is light weight, has excellent transparency, UV stability and fire resistance.

### 3. Danpalon: Polycarbonate roof glazing & vertical cladding

A complete daylight solution – exceptional light quality, high thermal insulation and a rich non-industrial visual appeal. Unique standing seam connection creates a strong yet flexible joint that is impact resistant and 100% leakproof while allowing full thermal movement.

### 4. Matrix Lattice: The smart alternative to timber lattice

Easy to work with, easy to cut, bend and form to shape. It never needs painting, is termite proof, the lattice sheets are unaffected by the harsh Australian conditions and will not rust! Comes in a variety of colours.

### 5. Twinson Decking:

This is the only Australian product for outdoor decking that comes with a no maintenance 25 year warranty. A combination of recycled timber and PVC, available in 8 different colours with 2 profiles. Looks and feels just like timber without the maintenance.

### FIRMLOK® Building Systems: Solid Steel Construction

Engineered and built to Australian Standards, FIRMLOK® is super strong, light weight and can create large spans. It is fire resistant, won't shrink, rot, twist and is white ant proof. FIRMLOK® is maintenance free and inexpensive.

Pergolas Plus have many inexpensive construction alternatives that will not only beautify your immediate surrounds, but will most definitely add value to your home. From carports, sunshades, awnings and ferneries to fly proof rooms, or even just creating a much welcomed shelter from the wind and rain, Pergolas Plus have the right choice for you. Pergolas Plus are proudly family owned and operated. We ensure personal, friendly and professional service and provide prompt attention to your enquiry and completion of your job. We employ competent, highly trained staff with OH&S training. Your plans are computer drawn in-house and building permits are arranged by us.
