

MULTI WALL—Polycarbonate Roofing Systems

- Heat Reflective Colours
- 100% Waterproof
- 99.9% UV Protection
- Superior Light & Visual Appearance
- Clean Finish

Superior Light and Visual Appearance

A unique polycarbonate glazing system transmitting an even diffusion of natural light producing a look similar to glass.

The added benefits of using polycarbonate include strength, insulating qualities, lightweight for easy assembly & 99.9% UV protection.

Using a standing seam connection system allows for flexibility to design spectacular glazed areas of unlimited shape & size.
