

FLAT DECK—Roof Cladding

- Long Span Cladding
- Clean uninterrupted lines
- Gloss finish for visual appeal
- Can be used on pitches from as low as 2°
- Simple Construction
- Custom sizing

A long span cladding suited to all forms of home improvements

Flat Deck is double sided long span cladding making it an extremely versatile roofing option well suited to many types of home improvement projects.

The underside of Flat Deck is a gloss finish giving a clean visual appeal that provides greater light reflectance and reduces the need for additional lighting.

This popular roofing option can be complimented with the use of fibreglass panels for extra natural light.
